PROGRAM NEEDS ASSESSMENT

The practice of pediatric pathology requires up to date knowledge of the diseases affecting children, including their scientific basis, clinical spectrum, pathologic classification, and current research activities. The Society for Pediatric Pathology Annual Meeting is intended as an ongoing resource to meet the educational needs of pediatric pathologists, general pathologists whose practice includes pediatric pathology, pediatric pathology fellows, and pathology residents.

PROGRAM OBJECTIVES

The objectives of the Society for Pediatric Pathology Annual Meeting are:

- 1) To provide in the scientific sessions a forum for the presentation and discussion of current clinical problems and research activities in pediatric pathology.
- 2) To provide in the symposium a comprehensive treatment of the basic science, pathologic and clinical aspects of a specific topic.
- 3) To provide in the elective workshops practical instruction from recognized expert pathologists on specific areas of pediatric pathology.

CONTINUING MEDICAL EDUCATION ACCREDITATION

The Society for Pediatric Pathology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Society for Pediatric Pathology designates this educational activity for a maximum of 15.0 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
