

Important announcement for the 2010 SPP Fall Meeting:

Pre-loaded flash drives will be issued to all *registrants* of the 2010 SPP Fall Meeting, in Banff, as part of the SPP's effort to be ecologically observant and "go green." Included on these individual flash drives will be the cover announcement with ACCME compliant documentation, the Symposium speakers' handouts, and texts of all accepted platform presentation and poster presentation abstracts.

Those individuals registering for the Perinatal Symposium (PS) will receive flash drives additionally (or individually) loaded, as appropriate, with the PS cover announcement and all its speakers' handouts.

There will be no paper handouts or abstracts distributed at the meeting. However, *registrants*, wishing to print their own hard copies of the handouts, will be able to download the materials from a secure site on the SPP website, approximately one week prior to the meeting. Registrants will be given a "padfolio" at the registration desk, primarily containing the pre-loaded flash drive, paper copies of the agenda, and purchased meal tickets. Abstracts are available now for immediate download from the SPP website (www.spponline.org).
